Cool New Patterns For 2007!

Handmade

With all four patterns, the forks and spoons are cold forged in a handmade process. This gives you the heaviest flatware with a totally unique feel. The handles of the forks and spoons are slightly longer than traditional flatware.

Forged

A unique collection of flatware that glows with the beauty of silver but is made in maintenance free 18% chrome, 10% nickel. Our patterns represent both the latest innovations in design and ageless classic styling to assure that you will find the perfect combination for your tabletop. All of our flatware includes European forks and knives to complement large plates, platters and pasta dishes.
